Electric truck for Porsche

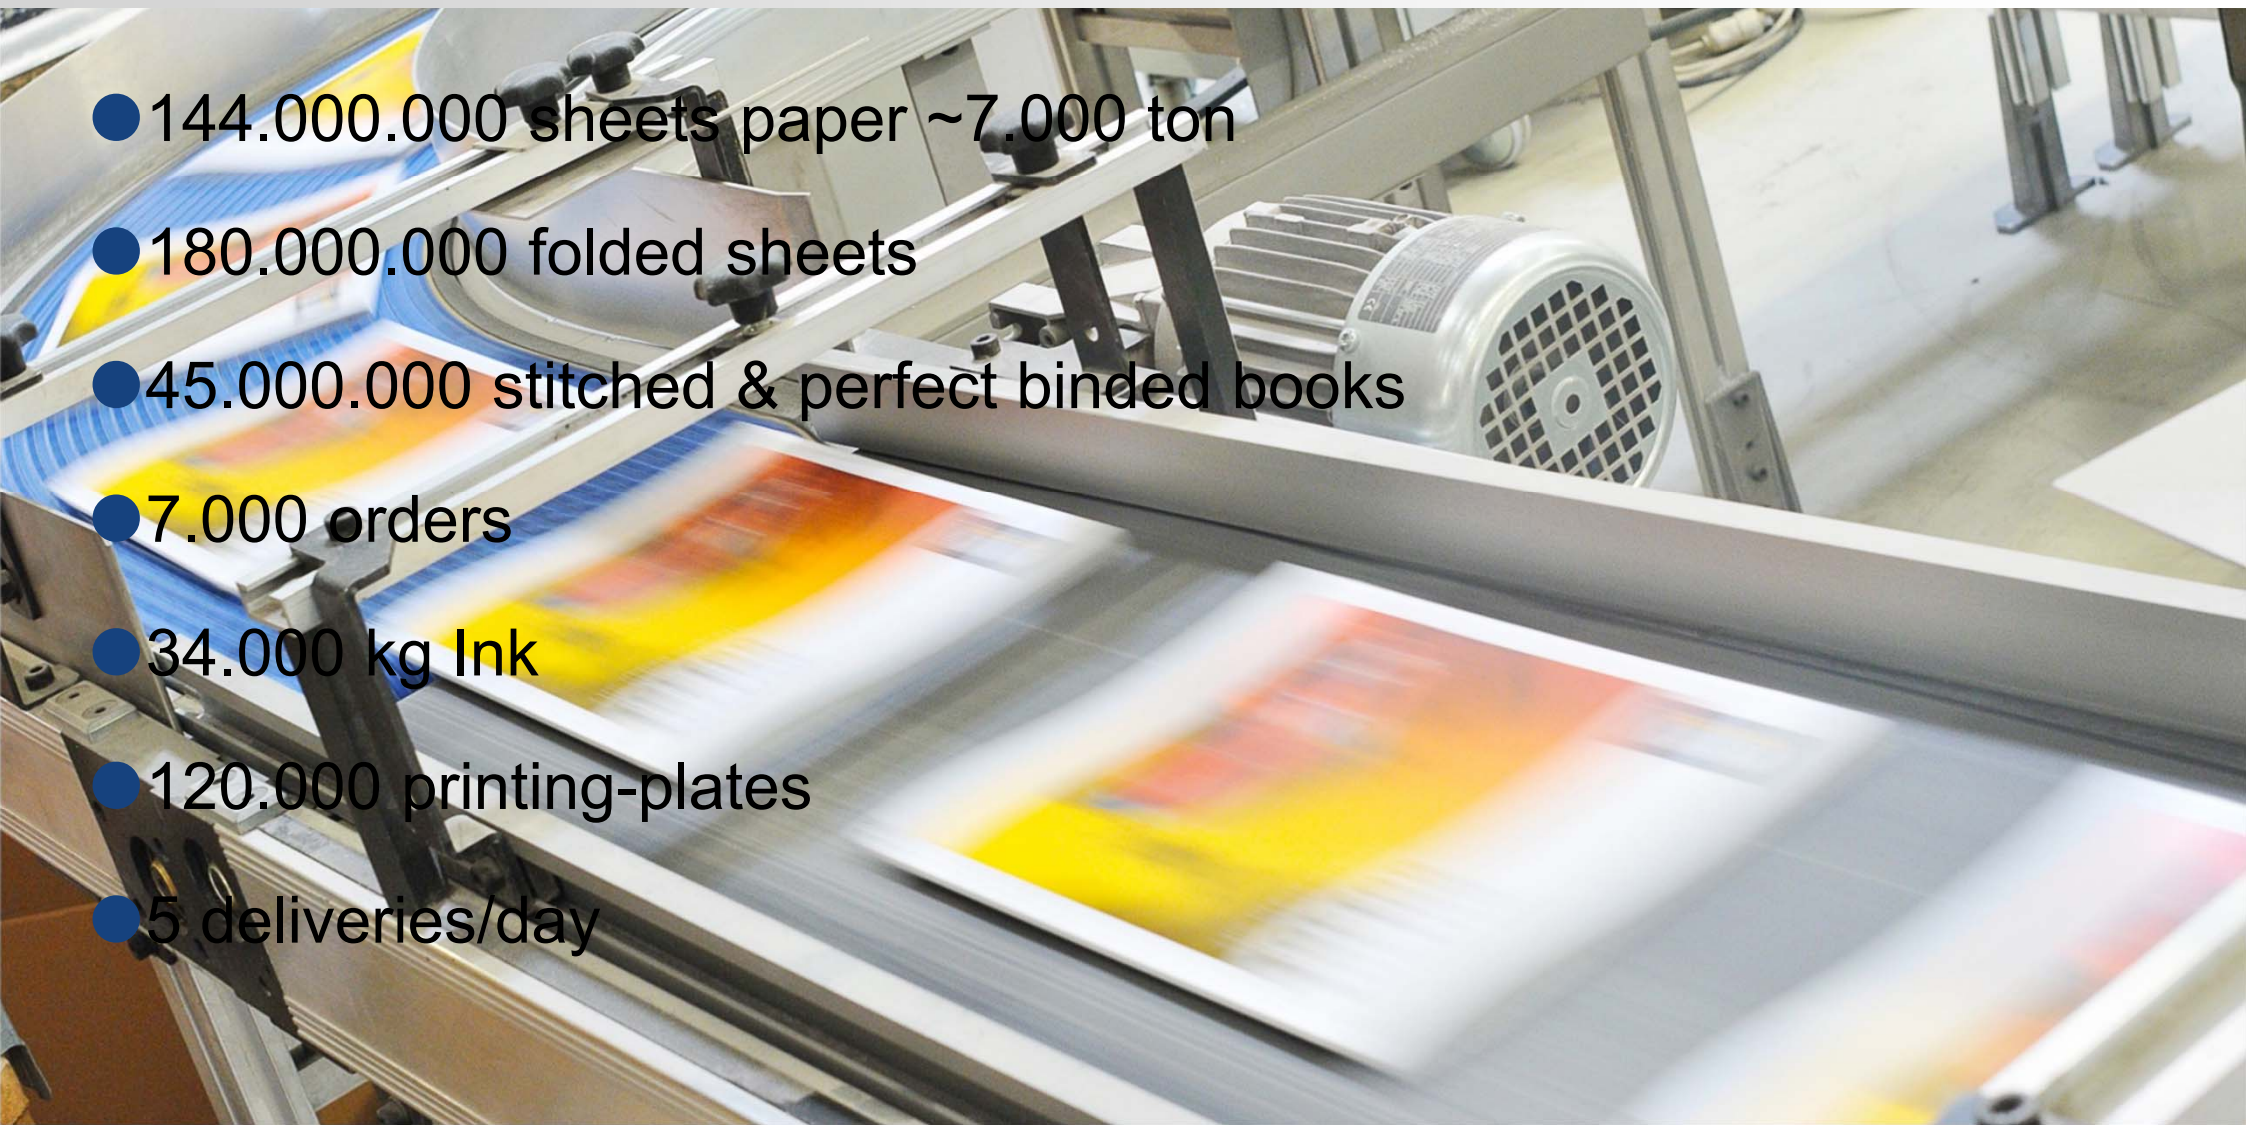

- Elanders has together with Porsche invested in an electric truck from MAN. The truck has a range of 130 kilometers after being fully charged.
- The eTruck will initially run the distance of 19 kilometers between Elanders' warehouse and Porsche's factory 5-6 times per day.
- This eTruck is the first of its kind being used in daily operations on public roads in Germany.
- Porsche has developed a charging station for the truck, which has been installed at Elanders' warehouse.
- The eTruck is charged at the same time as goods are being loaded onto the truck. 45 minutes of charging gives the truck a range of 100 kilometers.
